

Position: Landscape Architect | Architect
Location: Jakarta, Indonesia

We are seeking a creative and skilled Landscape Architect or Architect for our Jakarta office. In this role you will focus on supporting the delivery of landscape planning and design projects. You will be a part of the team under the direction and guidance of senior designers and will assist in developing high quality deliverables on projects. You should know your way around SNI Standards and international best practices for landscape planning and design, have a keen eye for interesting and feasible landscape features and be excited by the prospect of planning and designing high quality environments which contribute to a more sustainable future, whilst recognizing Clients ambitions and expectations. The position is open immediately.

Skills & Qualifications:

- A relevant degree in Landscape Architecture or Architecture;
- Possess high degree of design flair and skill;
- Passionate about designing creative and innovative landscape areas;
- Understanding of landscape materials (hard and soft landscape) and construction details;
- Technical knowledge in hard landscape design;
- Computer literate in AutoCAD, Photoshop, Freehand/In-design and Sketchup;
- Minimum 3 years postgraduate experience;
- Experience in the project management; and
- Willing to undertake international travel.

For all Staff, we offer excellent opportunities for career advancement, and the opportunity to work on a wide variety of challenging and interesting Projects within a collegiate team of international planners and designers.
