Position: Landscape Construction Designer
Location: Jakarta, Indonesia

PT Townland International is part of the TOWNLAND Group, a leading international multidisciplinary planning and design consultancy. The Group provides professional services in urban and regional planning, master planning, urban design, landscape architecture, architecture, and related disciplines to governments, public agencies, and private-sector property developers in Indonesia, Hong Kong, the People's Republic of China, India, and across the Asia-Pacific region.

We are seeking a detail-oriented Landscape Construction Designer to join our team and help transform design concepts into precise, buildable landscape documentation.

You will play a key role in developing high-quality technical drawings, construction details, and design documentation for landscape architecture projects. The ideal candidate combines strong drafting skills with a practical understanding of materials, constructability, and design intent.

What you will do:

- Produce accurate, well-coordinated landscape technical drawings and construction documentation.
- Develop detailed hard and soft landscape drawings, including materials, finishes, levels, and construction details.
- Support the design team from design development through to construction documentation.
- Ensure drawings are clear, buildable, and aligned with project standards and design intent.
- Collaborate with landscape architects, designers, and consultants to resolve technical and coordination matters.

What we are looking for:

- A degree in Landscape Architecture or Architecture is an advantage.
- Minimum 2 years of relevant postgraduate experience in landscape design, drafting, or construction documentation.
- Strong experience in producing landscape technical drawings and construction details.
- Excellent understanding of hard and soft landscape materials, construction methods, and buildability.
- Good technical knowledge of landscape design development and documentation.
- Highly proficient in AutoCAD; familiarity with SketchUp is preferred.
- Experience with BIM or Revit is an added advantage.
- Professional experience in an international landscape architecture projects is desirable.
- A strong eye for detail, accuracy, and high-quality drawing standards.

What we offer:

- The opportunity to contribute to meaningful landscape projects from concept to construction.
- A collaborative design environment that values technical excellence and creative problem-solving.
- Space to grow your expertise in landscape documentation, detailing, and project delivery.

This is an excellent opportunity to be part of a growing team of talented planners and designers on a range of exciting project opportunities in Indonesia and the Region. We offer a competitive financial reward, solid career advancement and the opportunity to work on a wide variety of challenging and interesting Projects within a collegial team of international planners and designers. You will receive valuable international experience in a dynamic region and the opportunity to be a core member within a success driven Company.

To apply, please submit your CV and portfolio showcasing relevant technical drawings, construction details, or landscape documentation to: **recruitmentjkt@townland.com**
